Mr. Henderson stated the purpose of the workshop would be to ensure the Department is making thoughtful decisions, to have further conversation on what changes look like, to ensure changes make sense, and to get feedback on the changes.

Utilities Engineer Kishora Panda reported that after a previously opened public bid that returned no responsible bidders, one bid was received from MKD Construction during the seven-day extension, and it was determined MKD was a responsible bidder.

Chair Keller asked for public comment and there was none.

Comm. Cassinelli moved to award a contract to MKD Construction, Inc. in an amount not to exceed \$6,030,756 for the Highway 50 Sewer Replacement Project Phase 2 construction in Dayton and to authorize the Interim Utilities Director to sign project construction related documents; Comm. (Utilities Engineer, Kishora Panda)

Utilities Engineer Kishora Panda explained that this contract provides Lumos & Associates additional scope to assist Lyon County with construction administration, construction surveying, construction observation, engineering services during construction, and material testing services that support the project construction.

Chair Keller asked for public comment

Don Smith asked if other consultants were solicited because this cost represents about 13.5% total construction cost.

Mr. Panda clarified the selection was based on a 2023 compilation of qualified local engineering companies with specialized skills and resources. Lumos & Associates was selected to request a proposal from to continue the construction management because they built the plan/project; no other solicitation was done.

Comm. Jacobson commented that he has heard some people aren't putting bids in because other counties are easier to work with, and that a workshop may help for feedback and changes that can be made to streamline the process.

County Manager Andrew Haskin clarified that for engineering services, State Law does not allow for a price request up front. The Contractor is selected based on the request for qualifications, and price is negotiated after selection.

Mr. Panda also specified that engineering planning, design, and construction is typically earmarked to not exceed 25% of the project cost, and that this project is 10% on design and 13% on the construction management, including a \$50,000 contingency buffer.

Comm. Cassinelli moved to approve a contract with Lumos & Associates for an amount not to exceed \$451,000 for construction administration, construction surveying, construction observation, engineering services during construction, and materials testing services for the Highway 50 Sewer Replacement Project Phase 2 construction; Comm. Comptroller Josh Foli referenced comparable figures from Carson City and Douglas County to show the contract amounts are significantly below market rate.

Chair Keller asked for public comment and there was none.

Comm. Jacobson moved to approve Sciarani & Co. as the auditor for the County with the fiscal year costs for fiscal years 2026, 2027, and 2028 being \$90,000, \$95,000, and \$100,000; Comm. Hockaday seconded, and the motion passed 5-0.

16.a For Possible Action: Approve a sixteen percent (16%) salary table increase for salary ranges L2 through L5, with associated salary increases for employees in those ranges, effective February 14, 2026 and authorize \$60,000 in a budget transfer from the General Fund contingency. The employees in the L2 through L5 pay ranges include the Deputy District Attorney I and II, Senior Deputy District Attorney, Chief Deputy District Attorney, and Court Master. (Comptroller, Josh Foli)

Comptroller Josh Foli explained the Deputy District Attorney role has been continuously open since 2022 with thirty-seven applications received since then; six applicants have been offered the position after interviewing and salary was the reason the candidates declined. Mr. Foli explained he has researched surrounding counties, and discarding outliers, has found that while the current salary range is acceptable, other counties are hiring at salaries averaging \$30,000 above entry-level. He also explained this item is to raise the salaries of current staff to be in line with recruiting for equity.

Mr. Foli confirmed that other counties still have open positions for Deputy District Attorneys, even with the higher salaries, so this is a difficult role to fill across the board. He also explained that this department is in a critical shortage, and considered to be in crisis with half of the Deputy District Attorney positions vacant; this is being brought to the Board mid-budget cycle based on revenue review.

Chair Keller asked for public comment.

Jim DeChambeau commented that it is grossly unfair that the rest of the employees receive only a 2.5 % percent raise.

Comm. Hockaday moved to approve a sixteen percent (16%) salary table increase for salary ranges L2 through L5, with associated salary increases for employees in those ranges, effective February 14, 2026 and authorize \$60,000 in a budget transfer from the General Fund contingency. The employees in the L2 through L5 pay rages include the Deputy District Attorney I and II, Senior Deputy District Attorney, Chief Deputy District Attorney, and Court Master; Comm. Cassinelli seconded, and the motion passed 5-0.

18. Human Resources

18.a. For Possible Action: Approve the elimination of the vacant Utilities Meter Technician position by replacing it with a Water Systems Technician position. (Human Resources Director, Ben Evans)

Human Resources Director Ben Evans explained the Utilities Meter Technician position was created to change Dayton water meters from an in-person read into an electronic read and with the project mostly completed, and the position vacant, it makes sense to shift the position into a Water Systems Technician. With additional skills required for the Water Systems Technician position, the salary increase is already budgeted for this current year with no impact.

Interim Utilities Director Sean Sinclair clarified this project has about 20% left and the Water Systems Technician would be completing the project and being on-call.

Chair Keller asked for public comment and there was none.

19.b. For Possible Action: Approve a second Commissioner to serve on the Nevada Association of Counties (NACO), NACO Board of Directors for calendar year 2026. Commissioner Keller is advancing to serve on the NACO Executive Board. (County Manager, Andrew Haskin)

County Manager Andrew Haskin explained and clarified that with Chair Keller advancing to serve on the NACO Executive Board, this item is to appoint someone to fill the second seat on the NACO Board.

Chair Keller clarified for Comm. Jacobson that travel for the Tahoe trip would be the only thing needing to be covered, showed support for Tammy Hendrix to fill the second NACO seat, and confirmed no other Commissioners were interested in the role.

Chair Keller asked for public comment and there was none.

Comm. Keller moved to approve a second Commissioner, Tammy Hendrix, to serve on the Nevada Association of Counties (NACO), NACO Board of Directors for calendar year 2026. Commissioner Keller is advancing to serve on the NACO Executive Board; Comm. Jacobson seconded, and the motion passed 5-0.
