

MASTER PLAN UPDATE COMMUNITY WORKSHOP

Public outreach and participation are integral components to the overall success of the Master Plan and will help in collecting data, understanding the needs of the community, and developing the Master Plan Element updates. A series of workshops will be held to scope the needs of Lyon County.

Residents will have the opportunity to provide input and to address individual community needs and desires for county-wide policies and actions. Input received during this public outreach phase will be incorporated as appropriate into the Master Plan Update. The draft Master Plan Update will be presented at the second series of workshops.

If you are unable to attend, materials have been made available on Lyon County's webpage for public review and comment.
