RFP GENERAL OVERVIEW
RFP #20/01 – Consultant Services to Research and Draft the
Walker River Corridor Economic Development Plan

The purpose of this RFP is to solicit the information needed for Lyon County to select a consulting firm to complete the Walker River Corridor Economic Development Plan to determine what is necessary for economic growth in the Walker River Corridor (the corridor) region of Lyon and Mineral Counties.

The selected consultant will conduct primary and secondary research within the project area that will be used to complete the final economic development plan for the corridor. The Walker River Economic Corridor stretches from Yerington to Smith Valley to Hawthorne. It includes the Yerington Paiute Tribe, the Walker River Paiute Tribe, and the Hawthorne Army Depot. The corridor economically influences all of southern Lyon County and Mineral County, along with the Fernley-Interstate 1-80 Economic Development Corridor to some degree. There is a need to strategically expand economic opportunities in this area, particularly for low-and moderate-income populations, and stimulate both private investment and community revitalization. Mining and Agriculture are rapidly growing industry sectors within the corridor, along with related value-added manufacturing activities and logistics. The preparation of a comprehensive economic development plan for the Walker River Corridor would view the corridor as an economic unit, ascertaining what is needed for economic growth and document a plan to achieve it. Key plan elements would include identifying primary economic drivers that would create jobs, providing direction on the types of companies that would be good fits within the corridor, and piloting rural corridor revitalization in coordination and collaboration with local government entities. In addition, a document could be produced that shows all of the active mines in the corridor. This is important for current and future planning purposes. Infrastructure requirements and regulatory issues would also be examined.

The Contractor shall comply with 2 CFR part 200, “Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards”, as set forth at 24 CFR Part 570.50.

This project is funded by the Community Development Block Grant (CDBG) program of the U.S. Department of Housing and Urban Development (HUD). The selected contractor shall comply with CDBG rules and regulations and applicable State of Nevada Laws.

In the procurement of supplies, equipment, construction, and services by recipients and by subrecipients, the conflict of interest provisions in 2 CFR 200.317 and 200.318 shall apply. In all cases not governed by 2 CFR 200.317 and 200.318, the provisions of 24 CFR 570.611 shall apply.

As required by the Department of Housing and Urban Development, Lyon County and its Subcontractors must comply with the requirements of section 109 of title I of the Housing and Community Development Act of 1974 (Title I) (42 U.S.C. 5309) as set forth in 24 CFR part 6. Section 109 provides that no person in the United States shall, on the ground of race, color, national origin, religion, or sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with Federal financial assistance. Section 109 does not directly prohibit discrimination on the bases of age or disability, and the regulations in this part 6 do not apply to age or disability discrimination in Title I programs. Instead, section 109 directs that the prohibitions against discrimination on the basis of age under the Age Discrimination Act of 1975 (42 U.S.C. 6101-6107) (Age Discrimination Act) and the prohibitions against discrimination on the basis of disability under section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) (Section 504) apply to programs or activities funded in whole or in part with Federal

financial assistance. Thus, the regulations of 24 CFR part 8, which implement Section 504 for HUD programs, and the regulations of 24 CFR part 146, which implement the Age Discrimination Act for HUD programs, apply to disability and age discrimination in Title I programs.

The awarded firm will be required to provide Lyon County with their unique Dun & Bradstreet Data Universal Numbering System DUNS® number prior to award. If you need a DUNS number, visit D&B at <http://fedgov.dnb.com/webform>. Registration with SAM.gov is also required.

PROJECT OVERVIEW

BACKGROUND

Lyon County, Nevada has been awarded a Community Development Block Grant (CDBG) to complete a comprehensive economic development plan for the Walker River Corridor. The purpose of the project is to complete the plan to determine what is necessary for economic growth within the corridor.

The Walker River Economic Corridor stretches from Yerington to Smith Valley to Hawthorne. It includes the Yerington Paiute Tribe, the Walker River Paiute Tribe, and the Hawthorne Army Depot. The corridor economically influences all of southern Lyon County and Mineral County. There is a need to strategically expand economic opportunities in this area, particularly for low- and moderate-income populations, and stimulate both private investment and community revitalization.

Mining and Agriculture are rapidly growing industry sectors within the corridor, along with related value-added manufacturing activities and logistics. The preparation of a comprehensive economic development plan for the Walker River Corridor would view the corridor as an economic unit, ascertaining what is needed for economic growth and document a plan to achieve it.

Key plan elements would include identifying primary economic drivers that would create jobs, providing direction on the types of companies and/or industries that would be good fits within the corridor, and piloting rural corridor revitalization in coordination and collaboration with local government entities. In addition, a listing of all the active mines in the corridor will be developed for the plan and designed to be a multi-use standalone document. This is important for current and future planning purposes. Infrastructure requirements and regulatory issues would also be examined.

Stakeholder input and buy-in will be critical to the development of the plan. A technical advisory committee (TAC) comprised of key city, county, and tribal officials, business and industry leaders, representatives of Northern Nevada Development Authority and the Hawthorne Army Depot will provide input for the plan development. The committee will help with feedback for the development, conduct and analysis of stakeholder and business community survey. Based on survey results, the members can also assist with identifying, refining, and verifying crucial plan components. The TAC will contribute to and provide feedback on the content of the plan during its development.

The consultant will need to gather and compile historical and contemporary data regarding the economic ecosystem of the project area, including a list of the active mines. A SWOT analysis will then be done using that data, and the results will be used to revise/update the plan outline and components, including presenting the results to the TAC and conferring with the members.

Four stakeholder meetings will be held: three prior to the full plan development and one after the final draft has been completed. During the first meeting, stakeholders will be presented with the plan concept and have an opportunity to provide feedback. Presentation and discussion of the stakeholder and business survey results and proposed plan components will be the agenda for the second meeting. The third meeting will focus on the results of the SWOT analysis and the updated/revised plan components. The final stakeholder meeting will be the presentation and discussion of the final plan draft.

The completed plan document will be submitted to Lyon County for review, any edits, and final approval.
